## Bellinzoni Paste Wax

- A top quality concentrated wax, dissolved in an non-inflammable solvent. This product is a paste with exceptional polishing and protective power, due to the extremely high quality of raw materials used in its preparation. SPECIAL PREPARATION penetrates into the material (marble, granite or stone agglomerates) and if it is then rubbed with fine steel wool, a felt pad, or a dry woollen or cotton cloth, a uniform brilliant and long-lasting mirror-finish will be achieved.

### What Customers Say...

"OUR SALES REP AT ARAMSCO dropped off 6 odor pucks a few months ago and **I gotta say – we love them!** As a small business owner, the things that can frustrate the most are the dirtiest things, which for us, is the waste tank. I've made many attempts to have them cleaned as much as possible, however, the pucks kept things smelling fresh in the process. I love the idea that my technicians can operate in a fresh smelling van! **We will definitely be customers when they are for sale.**"

— Evan Ritchey, Owner, Coconut Cleaning
